- APN Regional Property Fund
- APN Nowra Property Fund
- APN Coburg North Retail Fund

APN Funds Management Limited
ACN 080 674 479 AFSL No 237500

TAX GUIDE 2020

Who should use this guide?

This guide will assist you in completing your 2020 tax return. The information in this guide is only for:

- Australian resident individual taxpayers; and
- Investments that qualify as a capital investment for tax purposes.

Australian taxation laws are complex. The application of these laws depends upon an investor's individual circumstances. The taxation information in this guide is of a general nature only. If you have any doubt or require further information about the taxation position of your investment we recommend you talk to your accountant or tax adviser.

If your investment is held in the name of a company, trust, superannuation fund or partnership, you will need to adapt the tax information contained in your 2020 tax return information to meet your tax status. We recommend you contact your accountant or tax adviser for assistance.

The purpose of this guide

This guide will help you to complete your Tax Return for Individuals (Supplementary Section) 2020. This guide contains general information only and it does not substitute any Australian Taxation Office (ATO) instructions.

You should refer to your tax statement when completing your tax return. Where you have capital gain amounts on your tax statement, you may need to refer to the ATO publication Personal Investors Guide to Capital Gains Tax 2020.

We have indicated the amounts on your tax statement that need to be included in your tax return. Each component of your distribution is explained in this guide.

Your tax return and your tax statement

In your tax return, you must declare income that you have been attributed during the period 1 July 2019 to 30 June 2020. This may not coincide with the actual cash distribution you have received during the same period.

To assist you in completing your 2020 tax return, the following points should be noted:

- All amounts are expressed in Australian currency.
- To complete your individual tax return, you should obtain copies of the individuals tax return instructions 2020 and the individuals tax return instructions supplement 2020. If you have capital gain amounts, you may need to obtain a copy of the publication Personal Investors Guide to Capital Gains Tax 2020 from the ATO.
- The question references in this guide relate to the Tax Return for Individuals (Supplementary Section) 2020.
- If you have received income from other investments, you will need to combine the information from those investments with the information we have provided.

Part B. Summary of Tax Return for Individuals (Supplementary Section) 2020 items

Part B of your tax return information explains items 13, 18, 19 and 20 in the Tax Return for Individuals (Supplementary Section) 2020 which may need to be completed by an investor in a managed fund. For investors with straightforward circumstances the information in Part B should be sufficient to complete your tax return.

Item 13U – Non-primary production income

This item shows your share of Australian sourced non-primary production income. Net capital gains, franked distributions and foreign income are not included in this amount.

Item 13C – Franked distribution from trusts

This item shows your share of franked distributions (together with any share of franking credits). The franking credit attached to the distribution is also at label Q Item 13.

Item 13Q – Franking credits

This item shows your share of the franking credits from franked dividends. Franking credits are credits for Australian tax that has been paid by a company on its earnings. You can claim the franking credits if you are a qualified person.

Item 13R – Credit for TFN amounts withheld

This item shows your share of any credit for TFN amounts withheld from interest, dividends and unit trust distributions paid or payable, in accordance with sections 12-140 and 12-145 of Schedule 1 to the Taxation Administration Act 1953 (TAA).

Item 18H – Total current year capital gains

Item 18A – Net capital gain

The components of these items are set out in Part C. You will need to gross up your cash distribution by the amount of any tax paid on capital gains (e.g. foreign tax on foreign net capital gains). If you have no current year capital losses or prior year net capital losses, the net capital gain amount can be transferred to your return. However, if you have current year capital losses or prior year net capital losses you will not simply be able to transfer the net capital gain amount from Part B to your tax return as such losses can generally be offset against and reduce capital gains. For assistance in completing the capital gains tax related questions please refer to the ATO publications: Guide to capital gains tax 2020 and Personal investors guide to capital gains tax 2020.

Item 20E – Assessable foreign source income

Item 20M – Other net foreign source income

As an Australian resident taxpayer you are liable for Australian income tax on assessable income earned from overseas investments. These items will generally be the same. If you have any deductions relating to foreign income, then you should refer to the instructions in the ATO publication Individuals Tax Return Instructions Supplement 2020.

Item 200 – Foreign income tax offset

Foreign income tax offsets represent foreign tax paid by the trust or its subsidiaries in respect of the foreign source income included in the distribution to you.

TAX GUIDE 2020

You may be entitled to a foreign income tax offset to the value disclosed in your Attribution MIT member annual (AMMA) statement. Your actual foreign income tax offset entitlement depends on your individual circumstances, taking into account all of your foreign income and expenses.

For assistance in determining your foreign tax offset entitlement, please refer to the ATO publication Guide to foreign income tax offset rules 2020.

Part C: Components attributed

A brief outline of the meaning and likely tax treatment of certain components appearing on the AMMA for the Fund is set out below.

Table 1: Australian income

These details provide a break up of label U item 13 Non-primary production income and label C item 13 Franked distributions from trusts. The tax paid amount displays the amount of franking credit that may be claimed by you at label Q item 13 Share of franking credit. The information may also be necessary for those investors who use the Application for refund of franking credits for individuals 2020.

Table 2: Capital gains Capital gains discount

This item shows the part of the capital gains attributed to you that are eligible for the 50% CGT discount.

Capital gains – other method

This item shows the part of the capital gains attributed to you where the capital gain was not eligible for the 50% CGT discount.

Net capital gain

This item shows the sum of capital gains (discount and other methods) that has been attributed to you.

AMIT CGT gross up amount

This item shows the additional amount treated as capital gains of members under ss 276-85(3) and (4) of the ITAA 1997, and is included in the AMIT cost base increase amount. This amount is non-assessable.

Total capital gain

This item represents the actual amount of capital gains attributed and includes the non-assessable amount in the attribution column for capital gains.

Table 3: Foreign income Other net foreign source income

This item includes income derived from foreign sources including dividend, interest, royalties, any other foreign source investment income and foreign tax withheld.

The foreign income tax offset amount displays the amount available that may be available to be claimed by you. Further information can also be found in the Guide to foreign income tax offset rules 2020.

Table 4: Other non-attributable amounts (includes tax deferred)

- **Other non-attributable amounts (includes tax deferred)** - includes the tax-free amounts and tax-deferred amounts (including returns of capital) already reflected in the AMIT cost base net amount.

Table 5: Cash distribution details

- **TFN amounts withheld** – shows the amount withheld from your distributions in accordance with sections 12-140 and 12-145 of Schedule 1 to the Taxation Administrations Act 1953.

Table 6: Cost base details

- **AMIT cost base net amount – excess*(reduction in cost base)**
You must adjust downwards the cost base or reduced cost base of your membership interests in the AMIT by the AMIT cost base net amount – excess.
- **AMIT cost base net amount – shortfall* (increase in cost base)**
You must adjust upwards the cost base or reduced cost base of your membership interests in the AMIT by the AMIT cost base net amount – shortfall.

*We have provided an example below that illustrates how the cost base adjustments are made under both scenarios on the following facts:

John held 500 units in the AMIT fund on capital account. The cost base for the units at the start of the year (1 July 2019) was \$750. John held the 500 units for the full year.

Scenario 1 – where there is an AMIT cost base net amount – excess

- a) John receives a 2020 AMMA with an AMIT cost base net amount – excess of \$20. John will need to reduce the cost base of his units in the AMIT by \$20. This will result in an ending cost base of \$730

Scenario 2 – where there is an AMIT cost base net amount – shortfall

- b) John receives a 2020 AMMA with an AMIT cost base net amount- shortfall of \$25. John will need to increase the cost base of his units in the AMIT by \$25 in total. This will result in an ending cost base of \$775.

Important

The taxation matters covered in this guide are of a general nature only and it does not constitute or convey advice. Readers should not act solely on the terms of the material contained in this advice. The information does not take into account your individual financial circumstances. Also, changes in law may occur quickly. We therefore strongly recommend that you assess whether the information is appropriate to you and consider seeking advice from your financial advisor and/or tax adviser before acting on the basis of any information contained in this guide.
